OVERVIEW

Founded in Egypt in 1997,
TABA Trading & Contracting
Is a trusted leader in HVAC solutions.
With over 28 years
Of experience, we deliver innovative, high-quality systems
Supported by expert design, installation,
And after-sales services.
Our commitment to quality, innovation, integrity, and
Sustainability has made us a preferred partner for R-HVAC
Medium-scale projects in Egypt.

VISION

To be the leading provider of integrated HVAC solutions,
Driven by innovation, exceptional quality,
And sustainable practices.

MISSION

To deliver advanced, reliable HVAC systems
And services that enhance comfort, efficiency, and
long-term performance for our clients.

VALUES

Quality – Innovation – Integrity –
Commitment – Sustainability

EXPERTISE

We have advanced expertise in R-HVAC, VRF systems,
Industrial refrigeration, central ventilation systems,
And chiller plants.
Our solutions serve a wide range of sectors,
Including administrative buildings, hospitals,
Pharmaceutical factories, shopping malls, and villas

Sample Submission for Consultant Approval

The displayed samples demonstrate copper piping (Type L) with Fittings and thermal insulation.

- Insulation: K-FLEX type, 19 mm thickness (from 1/4" to 3/4") and 25 mm thickness (from 1 1/8" to 2 1/8").
- Welding Method: All joints are brazed under continuous Nitrogen purging to ensure clean, oxide-free connections.
- Testing Method: Pressure test performed at 35 bar to verify System integrity and leak-free performance

TABA Industries – Remote Condenser

Capacity: 10 TR – Manufactured in 120 units for IT room applications.

IT Room Air Conditioning Specifications:

- Precision Cooling: Maintains stable temperature and humidity for sensitive IT equipment.
- High Reliability: Designed for continuous 24/7 operation.
- Energy Efficiency: Optimized for reduced power consumption without compromising performance.
- Redundancy Ready: Supports backup systems to ensure zero downtime.
- Compact Design: Space-saving footprint suitable for IT and server rooms

TABA control

TECHNICAL OFFICE

The Technical Office at TABA provides complete MEP engineering support with a strong focus on HVAC systems for commercial, industrial, and specialized applications.

Our scope includes detailed load calculations, advanced system design (VRF, Chiller, DX, and Industrial Refrigeration), and preparation of precise BOQ and specifications in compliance with ASHRAE and American standards SMACNA

We develop comprehensive shop drawings and as-built drawings, perform value engineering, and ensure seamless coordination between MEP disciplines.

Our team is proficient in preparing RFI, method statements, and technical submittals to meet consultant and client requirements.

Through a combination of engineering expertise, compliance with QA/QC procedures, and integration of energy-efficient solutions, the Technical Office ensures every project achieves optimal performance, reliability, and cost-effectiveness
